

WOODS GRADING SCRAPER

TRACTOR MOUNTED GRADING SCRAPERS

GS54S, GS60C, GS72C, AND GS84C GRADING SCRAPERS *for tractors 15–45 hp*

The power to smooth, grade and reconstruct. Whether you have a gravel driveway, a show arena or baseball diamond, a Woods Grading Scraper is the right tool. Build or restore areas to pristine condition for driving or playing.

More material, fewer passes

Woods Grading Scrapers are designed to handle more material in fewer passes. The heavy-duty mast plate creates more down force for a smoother surface, virtually eliminating the washboard effect. Adjustable skid shoes (for road shaping) and shanks make changes simple and economical. With one of the tallest side frames available, it allows you to grade more material without overflow while approachable leading edges and structural reinforcements keep your scraper stronger for longer.

The power to be more productive.

WOODS GRADING SCRAPER

Specifications	GS54S	GS60C	GS72C	GS84C
Weight	409 lbs.	553 lbs.	655 lbs.	752 lbs.

Skid Shoe adjustment	-0.75 to +0.75	-1.0 to +0.5	-1.0 to +0.5	-1.0 to +0.5
Lower hitch design	Clevis	Clevis	Clevis	Clevis
Tractor hp	15-30 hp	20-45 hp	20-45 hp	20-45 hp
	sub-compact		compact	

quick hitch

Available Quick-Hitch Category 1 bushing adapter kit for ease of attachment.

heavy mast plate

Solid mast plate provides increased weight for greater down force and constant ground contact—smoother surfaces with fewer passes.

reinforced back

Reinforcement bar maintains strength and handles heavier material without compromising structure.

industry leading height

Higher sides contain more material with little risk of overflow.

replaceable scarifiers & shanks

Replaceable scarifiers with hardened points for exceptional durability and versatility.

reversible cutting edge

Reversible and replaceable cutting edge for better, longer wear.

replaceable and adjustable skid shoe

Replaceable skid shoes keep the unit looking new. Heavy skids wear longer; outside adjustment allows for quick changes during road shaping.

unique pocket structure shanks

Shank pocket maintains toolbar strength.
