Introducing**
**CF VARIABLE COUPLER
by JB Attachments, Pioneers of Quick Coupler Systems

VERSATILE, SAFE, AND HIGH-PERFORMING, THE WOODS VARIABLE COUPLER PROVIDES GREAT POWER IN ANY APPLICATION

VERSATILITY
- Universal design picks up a wide range of compatible attachments
- Well-suited for tough applications such as hammers and concrete pulverizers

SAFETY
- Unique mechanical jaw locking system ensures the attachment is securely locked into coupler
- Three-step engaging and disengaging sequence requires operators to follow strict locking and unlocking procedures
- No need for manual safety pin
- Cast steel design, built to ISO9001 standards, and tested to twice the capability requirements

PERFORMANCE
- Low profile, lightweight design improves breakout force, reducing fuel consumption
- Only three moving parts means reduced maintenance and less chance for failure
- Integrated, one-piece, cast lifting eye is closed to protect against accidental unhooking of load
- Fully hydraulic (utilizing main pump), allows for quick and efficient attachment changes

PATENTED MECHANICAL LOCKING SYSTEM
