GANNON® is built on a tradition of reliability and performance and is synonymous with construction-grade box scrapers. The Gannon reputation extends into our line of backhoe, front loader, and multi-purpose buckets, as well as our extensive line of backhoe and compact excavator pin-on and quick change digging buckets.

Gannon offers a variety of quality digging profiles (light-duty and heavy-duty) designed for durability and long-term performance. Gannon buckets are offered in quick change and pin-on mounts for backhoes and compact hydraulic excavators.

GANNON BOX SCRAPERS
- Heavy-duty hydraulic scrapers, 65- to 96-inch widths
- Hydraulically operated scarifier bar
- Category 1 & 2 three-point hitch
- Double moldboard or tailgate design options

GANNON LOADER BUCKET
- 4-in-1 is a versatile bucket ideal for high dumping, dozing, grappling and placing material. This durable and productive product is fitted with pin-on or coupler mounts for loader backhoes and wheel loaders.
- General purpose and high capacity buckets are offered with various hardware arrangements and capacities to match the job at hand.

GANNON BUCKETS
- General purpose TLB buckets are designed for materials with a density range of 1,800 to 3,000 lbs/yd³, functional for light-duty needs and rugged enough for many heavy-duty applications.
- Compact excavator or TLB backhoe buckets are available in pin-on or quick change and a large selection of digging profiles; match OEM specifications.
ALITEC™ skid steer attachments are highly versatile and adaptable to a wide variety of job environments, including road repair, bridge deck repair, landscaping, municipal site prep and utility work.

### ALITEC ROCK WHEELS
- Models from 12- to 24-inch cutting depths
- Double reduction planetary drives
- Depth and sideshift auxiliary functions
- Electro-hydraulic controls
- High-flow models

### ALITEC AUGERS
- Four models rated from 15 to 45 gpm
- Motor / planetary gearbox design
- Two-inch hex or 2-9/16-inch round output shaft

### ALITEC ROOT AND SCRAP GRAPPLES
- Models from 65- to 86-inch widths
- Root grapples let dirt sift through when loading rocks, trash, and other loose material
- Twin hydraulic cylinders allow for independent clamping on uneven material while cylinder placement improves visibility
- Standard cylinder guards protect rods and hoses for longer life

### ALITEC LOADER BUCKETS
- Low profile, long and short bottom buckets
- Utility and high-capacity, light material buckets
- Heavy-duty construction

### WOODS PALLETS FORKS
- Designed for use on skid steer loaders and compact tractor loaders
- Universal Quick Attach coupler system
- Free pivoting forged steel fork tine design

### WOODS PALLET FORKS
- Designed for use on skid steer loaders and compact tractor loaders
- Universal Quick Attach coupler system
- Free pivoting forged steel fork tine design
Reap the rewards of partnering with Woods Construction – one company providing all your construction and landscape attachments. Woods offers the industry’s largest selection of attachments for compact excavators, skid steer loaders, tractor loader backhoes, skip loaders, large excavators, wheel loaders and mining excavators.

Whether you’re looking for a skid steer cold planer, mass-excavation bucket, hydraulic box scraper, or quick coupler and bucket for a backhoe, Woods provides a world of tools that allow the operator to get more work done in less time. Making host machines and machine operators more productive – that’s what we do best.

**PRODUCTIVE, COST-EFFECTIVE, RUGGED AND VERSATILE**

…the benefits of choosing branded attachments from Woods

WAIN-ROY® is recognized as the industry leader in quick change coupler systems and is renowned for innovation and reliability. Wain-Roy couplers and attachments for backhoes and excavators increase the versatility of the prime movers, increase the construction job site productivity, and increase "bottom line" financial results by minimizing the investment in attachment fleet inventory.

**WAIN-ROY QUICK COUPLER SYSTEM**

Wain-Roy couplers increase machine productivity with no loss of breakout force and are designed for use on compact excavators, tractor loader backhoes and excavators from 2,500 lbs to 25 metric tons.

- Patented XLS coupler system allows shimming to keep the connection to the attachment tight
- XLS system adds versatility by being able to pick up both XLS and original-style attachments
- Rigid couplers are available in either manual or hydraulic pin release configurations
- Hydraulic swinger couplers with manual pin release provide additional attachment productivity when performing contouring work

**WAIN-ROY®**

The original W-R ripper buckets are engineered to tackle the toughest ripping jobs such as limestone, caliche, shale or coral. Available in quick change or pin-on mounts for TLB to 80MT class hydraulic excavators.

**WAIN-ROY JAW BUCKET**

Available in Quick Change or pin-on mounts for TLB to 20MT hydraulic excavators. Leverage the machines lifting capabilities and operator versatility with a W-R Jaw bucket — clamping forces range from 5,900 to 8,700 lbs over the product range.

**WAIN-ROY TILTING BUCKET**

Ideal for ditch cleaning, grading, backfilling and loose material handling.

**WAIN-ROY BUCKET WITH HYDRAULIC THUMB**

Thumbs are used in conjunction with a bucket as an efficient method to handle bulk material.
CENTRAL FABRICATORS® buckets are designed for easy material flow when loading and unloading the bucket. Buckets are designed to improve machine versatility and jobsite productivity. All buckets are made with high strength steel, T-1 cutting edges, and replaceable wear components.

CF EXCAVATOR BUCKETS
- Internal struts and corner gussets for superior strength and rigidity without impeding product flow
- Designed to OEM pin-up specifications
- Side cutter insert and cutting edge notched for a larger, stronger and more rigid attaching joint

CF WHEEL LOADER BUCKETS
- Light material and multi-purpose styles
- Coupler and pin-on models
- Bolt-on cutting edge or tooth models
- Straight and spade nose edge designs

CF GRAPPLES
- All exposed welds protected against wear
- Hardened pressed bushings
- Stiff and hydraulic cylinder mounts available
- Constructed of wear resistant material
- Available in heavy-duty, general purpose and light-duty designs
- Standard product offering covers 12MT to 45MT class machines

WHEEL LOADER QUICK COUPLER
- Compatible for use on pallet forks, front end loader and multi-purpose buckets
- Covering wheel loaders from 11,000 to 41,000 lbs gross weight

PIN GRABBER COUPLER
- Direct pin and quick latch models
- Available in both mechanical and hydraulic styles
- Optional jump latches adapt to any machine, any attachment, different MT size classes and competitive pin geometries

CF THUMBS
- Engineered for bulk material handling
- Several product arrangements are available with different tine styles to meet specific job requirements
- Styles include mechanical (weld-on and direct pin) or hydraulic (weld-on, direct pin and progressive link)
- Constructed of T1 material
Woods is an industry leader in the design and manufacturing of mining, construction, landscaping and agriculture attachments and implements.

Woods manufactures top-quality products under the brand names of Wain-Roy, Central Fabricators, Gannon and Alitec and sells them through a nationwide network of dealers.

Our broad line of attachments provides solutions for tractor loaders, hydraulic excavators, wheel loaders, compact hydraulic excavators, and skid steer loaders.

GANNON®
Compact Excavator and Tractor Loader Backhoe
- box scrapers
- buckets
- couplers
- specialty attachments

ALITEC™
Skid Steer
- augers
- brooms
- buckets
- cold planers
- rock wheels
- stump grinders
- tillers
- vibratory rollers

WAIN-ROY®
Tractor Loader Backhoe and Excavator
- buckets
- couplers
- material clamps
- specialty products

CENTRAL FABRICATORS®
Large Excavator, Mining/Mass Excavation and Wheel Loader
- buckets
- couplers
- grapples
- material clamps
- specialty attachments
